

GLASS CLEANER

Sustainably derived and suitable for use on glazing, mirrors, stainless steel and other reflective surfaces.

WHY LANDFILL WHEN YOU CAN RE-FILL?

1 Fill – Re-fill with 1 litre of water

2 Add – drop 1 FabMate™ Glass Cleaner Capsule into the bottle

3 Shake – screw on the cap and shake the bottle and the capsule dissolves

4 Go – the cleaner is ready to use

FabMate™ Glass Cleaner Capsules are dissolvable, convenient and environmentally friendly.

Eliminate the single use of plastic bottles as they can be used repeatedly.

With FabMate™ Glass Cleaner Capsules zero water is transported, thus the volume and weight of products in transit is low. You would be amazed at how much this reduces emission through fewer transport miles and increasing the capacity within the transport vehicles.

Our glass cleaner works with any clean cloth, dries quickly and streak free with no fragrance. For use on a wide variety of surfaces including glass, mirrors, UPVC, stainless steel and aluminium. Six capsules per resealable, recyclable, waterproof pouch.

FabMate™ Glass Cleaner Capsules are cost effective (up to 50% savings on glass cleaner costs), practical, and an environmentally friendly solution.

Here at FabMate™ we supply all the fixings, sealants and consumables that window installers require. Offering UK wide next day delivery on all our stock items, we can ensure that you are always fitting windows.
