

FABMATE LMN

A neutral cure alcoxy low modulus premium performance silicone sealant designed for weather sealing and joint sealing in a wide range of applications in building and construction. Non-corrosive and odour free with outstanding adhesion to a wide range of materials.

- **MEKO free formulation - does not contain harmful substances**
- **Perimeter sealing**
- **Expansion joint sealing**
- **Alcoxy cure silicone**
- **Solvent free silicone**
- **Excellent weatherproof and high UV resistance**
- **No Cracking or Shrinking**
- **Odourless and non-corrosive**
- **Excellent flexibility and adhesion to numerous porous and non-porous substrates for construction and glazing applications.**
- **Permanent elasticity.**
- **High viscosity non slump formula.**
- **Wide range of application temperatures – from +5C to +40C**
- **Excellent resistance to temperature extremes once cured -50C to +150C**
- **Approved to UKCA EN 15651-1 and EN 15651-2**

Unit 3 Earl Road, Rackheath, Norwich NR13 6NT
